

This is an exercise in Google Searching. You are an information detective.

You will want to web search and image search.

You are searching for information on Gerry Bering. He grew up in Port Orchard and graduated from South Kitsap High School in 1961. He married Patty King. He was always very good athletically, especially as a high jumper and had a keen interest in math. He wanted to become a computer programmer but took a job in Alaska as a surveyor which meant flying with bush pilots doing aerial surveying. He also has a keen interest in dogs and owns a bloodhound he regularly goes running with. I believe he lives in either Fairbanks or Anchorage. I know he is interested in search and rescue. What can you find out about Gerry without spending any money?

Include information such as:

Gerry's job:

Gerry's address:

Gerry's middle initial:

Gerry's company:

Gerry's professional organization responsibilities:

Gerry's photo:

Gerry's phone number:

Gerry's dog interests:

Gerry's search and rescue interests:
