

September 6, 2016

Dear Parent or Guardian:

Welcome to the first week of **Yearbook** at Henderson Bay High School. I am pleased to see your son/daughter enrolled in this class and am looking forward to helping your student develop yearbook and computer skills that will enable him/her to be successful in a quickly changing world.

I constructed 14 yearbooks during my tenure at Peninsula High School and one book here at Henderson. Yearbook, the class, develops a host of personal skills and technical skills. Students learn to schedule interviews and photos. Students learn what coverage is and how to get quality pictures to cover the event selected. Students also learn to work with page editing software like InDesign and image editing software like Photoshop.

This really is a class about taking on responsibility and meeting deadlines with responsible quality work. At times it may be demanding but the rewards are infinite.

Interim grades and final grades are a composite of the grades earned on class assignments, projects, and quizzes. If at any time during the semester you have any questions about grades or assignments, please feel free to contact me at Henderson Bay School Ph. 253.530.1769 or email: [rieblij@psd401.net](mailto:rieblij@psd401.net) . I also have a website: johnriebli.com. You can contact me there as well.

I am looking forward to an exciting year at Henderson. Our lab is exceptional. We have access to the Adobe Create Suite. We have excellent cameras and should be able to create a really outstanding book.

We try to develop student skills so staff can gain confidence and always know where to start so they can get projects done. Feel free to contact me any time.

Sincerely,

John Riebli  
Yearbook Adviser  
Henderson Bay High School
