

## **PROJECT RUNWAY Video Quiz for 4/22/2014**

Open a new project in Adobe Premiere.

Import the raw footage clips that are under //Media/Assignments/Fidm project

Use clips in Raw Footage 1 which are runway shots and Raw Footage 2 which are sewing shots.

Your soundtrack is GetPlastered.mp4

You will put together a 10 second Promo for Project Runway using these clips.

You will need to unlink the audio from the video clip to get your soundtrack. Find the ten seconds in the clip you want to use and boost the sound so we can hear it.

My guess is you will want to fade your clips together and find the best second or so in each.

Don't forget title and you will need to credit yourself at the end.
